Review	Release A CDR	
Originator Ref	DSNO 8	
Priority	2	

Section Ground Event Planning, **Page** beginning Page 6-141 **Figure Table** N/A
~~Section 6.8~~

Category Name MSS Design **Actionee** ECS
Sub Category
Subject Applicability of Ground Event Planning to MSS

Description of Problem or Suggestion:

There is no apparent reason to include a Ground Events Planning Service with the MSS services. This section (written at a very high level) appears to have been copied from SDPS documentation and has no obvious relevance to MSS.

Originator's Recommendation

Provide the relevance of this service in terms of MSS-specific activities, descriptive text, lists of queries, responses, and parameters, and scenarios.

HAIS Response Date 9/29/95

As stated in this section, the MSS Ground Events Planning service is a complete reuse of the planning functionality implemented by the Planning Subsystem. As such, the object model and accompanying text will be identical to the Planning System's object model and text. The rest of the section, however, should be unique to the MSS aspects of the planning service and will be updated to reflect this.

Status **Closed**
